PROFILE

I look forward to work in a reputed concern, where I can solely implement the knowledge and technical skill that I acquired over the years to establish myself as an asset to the organization.

PROJECTS

Portfolio Site (HTML/CSS)

- This is a project that I've been working on my own time. The main objective of this project is to build a platform where I can showcase my projects and who I really am.
- Link: [Imgkl.github.io](https://imgkl.github.io)

Quotes (Flutter)

- A Flutter application which has nearly 3500 quotes to offer and motivate your daily life. App is developed with a minimal design in mind.
- Link: www.github.com/Imgkl/Quote

CommuniTV (Flutter)

- This application lists top 100 TV shows in an intuitive UI. It has an option to see how many seasons aired, where to watch it and has respective links to streaming sites. It also can fetch cast details from Google.

EDUCATION

United Institute of Technology • 2016-2020

B.E Computer Science | CGPA: 6.42

Bharatiya Vidya Bhavan • 2014-2016

HSLC | Percentage: 60

Bharatiya Vidya Bhavan • 2009 - 2014

SSLC | Percentage: 89.5

R.U.D.E (HTML/CSS/JS)

- This JavaScript bot can understand your question and give predefined rude comments to it. This website requires microphone access because this application gets the input from you in the form of voice commands.
- Link: <https://imgkl.github.io/R.U.D.E>

Yep/Nope (Flutter)

- A Flutter app which has the ability to choose decisions for you. This application uses a "Yes or No" API. It is a really fun application to work on. This application gives random gifs saying "yes" or "no" with each refresh/API calls.
